ARCHAEOLOGICAL INSTITUTE OF AMERICA

REGULATIONS

ADOPTED OCTOBER 11, 1884. REVISED MAY 8, 1897, AND MAY 10, 1902.

I. THE ARCHAEOLOGICAL INSTITUTE OF AMERICA, consisting of a number of Affiliated Societies, is formed for the purpose of promoting and directing archaeological investigation and research,—by sending out expeditions for special investigation, by aiding the efforts of independent explorers, by publication of archaeological papers, and of reports of the results of the expeditions which the Institute may undertake or promote, and by any other means which may from time to time appear desirable.

II. The Archaeological Institute shall consist of Annual and Life Members duly approved by the Affiliated Societies, the former being those persons who shall pay an annual assessment of \$10, and the latter such as shall contribute at one time not less than \$100 to its funds. Classes of Honorary and Corresponding Members may be formed at the discretion of the government of the Institute, and under such regulations as it may impose.

III. The government of the Institute shall be vested in a Council, consisting of the following *ex officio* members: the President, the Honorary Presidents, the Vice-Presidents, the Treasurer, and the Secretary of the Institute, and the Editor-in-Chief and the Business Manager of its Journal; the Presidents of the Affiliated Societies; and the Chairmen of the Managing Committees of the Schools of Classical Studies at Athens and in Rome, and of the School in Palestine; and of additional members annually chosen by the members of the Affiliated Societies as follows:

Any local archaeological society, consisting of not less than twenty-five members of the Institute, may, by vote of the Council, be affiliated with the Institute, and shall then have the right to elect one member to the Council. When the members of such society shall exceed fifty, they shall have the right to elect a second member to the Council, and similarly another member for each additional fifty.

IV. The officers of the Institute and of the Council shall be a President, Honorary Presidents, five Vice-Presidents, a Treasurer, a Secretary, an Associate Secretary, and a Recorder. The President and Vice-Presidents shall be elected at the annual meeting of the Council, and shall be eligible for reelection. The Honorary Presi-

dents shall be the former Presidents of the Institute. The Treasurer, the Secretary, the Associate Secretary, and the Recorder shall be chosen by the Council, and shall hold office at its pleasure.

V. There shall be an Executive Committee consisting of the President, Secretary, and Treasurer of the Institute, *ex officio*, of the Chairmen of the Managing Committees of the Schools in Athens, Rome, and Palestine, *ex officio*, and of three members of the Council, each to serve for the period of three years, one to retire annually.

VI. The President, in behalf of the Council, shall present a Report on the affairs of the Institute annually to its members.

VII. The Secretary, with the aid of the Associate Secretary, shall perform such duties as pertain to this office.

The Recorder shall keep a record of the transactions of the Council.

The Treasurer shall collect, receive, and keep account of all assessments, subscriptions, and gifts of money to the Institute, shall pay its dues, and shall present to the Council at its annual meeting a written statement of accounts.

VIII. The accounts of the Institute shall be submitted annually by the Treasurer to two Auditors, to be appointed by the President, who shall attest by their signatures the correctness of said accounts, and report the same at the annual meeting.

IX. The Council shall hold an annual meeting on the second Saturday of May, at 10 o'clock A.M., at such place as may be selected by its members at the previous annual meeting. Any member of the Council unable to be present at any meeting may appoint by writing any other member to act as his proxy. One-third of all the members of the Council, present in person or by proxy, shall form a quorum.

Special meetings of the Council may be called by the Secretary, upon direction of the President, or at the written request of one-third of its members.

X. The Institute shall meet annually, as a whole, for the reading and discussion of scientific papers by its members. The time and place of this meeting shall be determined by the Council at its annual meeting.

General meetings of the Institute may be called from time to time, at the discretion of the Council.

XI. The Council shall have full power to determine the work to be undertaken by the Institute, and the mode of its accomplishment; to employ agents, and to expend all the available funds of the Institute for the purpose for which it is formed; but it shall not have the power to incur any debt on behalf of the Institute. It shall

have no other jurisdiction over the regulations or actions of the Affiliated Societies than that these Societies shall not undertake any formal publication without its consent; and any moneys contributed for any object promoted by an Affiliated Society, approved by the Council, shall be strictly appropriated to that object.

XII. Any collection of antiquities which may come into the possession of the Institute through the explorations undertaken by it, or otherwise, may be sold, at the discretion of the Council, to the museum or other public institution in the United States which may offer for them the largest sum; it being understood that contributions toward the cost of any exploration may be assigned by the donors to the credit of any museum or public institution as part of the purchase money.

XIII. The names of all Affiliated Societies and Members shall be printed with the Annual Report of the Council. Names of Life Members deceased shall be printed in the regular list, but these names shall be starred.

XIV. Each Affiliated Society shall be designated by its local name in the following style:

ARCHAEOLOGICAL INSTITUTE OF AMERICA

BALTIMORE SOCIETY

And it shall have the right to use the seal of the Institute on its official papers.

XV. Assessments, subscriptions, and donations may be paid to the Treasurer of the Institute or to the Treasurer of the Affiliated Society to which the contributing member belongs. Annual Members who have failed to pay their dues for two consecutive years shall, unless special action be taken by the Affiliated Society to the contrary, be dropped from the list of the Institute. The year shall be considered as closing on the 31st of August, and from this time the assessments of the year then ensuing shall become due.

XVI. Ten per cent of all annual dues received by each Affiliated Society shall be held by its Treasurer for the discharge of local expenses. In case any Society does not in any year require the whole of this sum, the balance shall, at the end of the year, be passed into the general funds of the Institute. Grants in aid of Affiliated Societies may be made by the Council.

XVII. Each member of the Institute shall receive a copy of all regular publications of the Institute issued during the period of his membership.

XVIII. The Institute commits to the Managing Committee of the American School of Classical Studies at Athens, and to the Managing Committee of the American School of Classical Studies in Rome, respectively, the entire administration of these Schools, including the expenditure of their incomes, under the following provisions:

1. The Chairman of the Managing Committee of each School shall make a report to the Council annually on the work of the School during the preceding year.

2. The President of the Institute shall be *ex officio* a member of the Managing and Executive Committees of each School, and the Chairman of the Managing Committee of each School shall be *ex officio* a member of the Council of the Institute.

3. A copy of all ordinary publications of the Schools shall be sent to each member of the Institute, and the Institute shall bear a proportionate share of the expense of publication of the Papers and Reports of the Schools.

4. The Institute shall maintain in each of the Schools a fellowship, to be administered by the Managing Committee, of the annual value of six hundred dollars, for the encouragement of archaeological studies.

XIX. Amendments to these regulations may be proposed by any three members at any annual meeting, and shall require for adoption the affirmative vote of three-fourths of the members of the Council present and voting.

REGULATIONS

I. The object of the School shall be to furnish to properly qualified American students an opportunity to study, in Syria, Biblical literature; the history, geography, and archaeology of Syria and Palestine; and the ancient and modern languages of the country; to prosecute and aid original research; and to contribute, as opportunity may offer, to the advancement of knowledge in these subjects.

II. The Managing Committee shall include one representative from each of the Universities, Colleges, or Seminaries which support the School; all individuals who contribute to it not less than \$100 a year; three members chosen by the Society of Biblical Literature and Exegesis; the President of the Archaeological Institute of America, and the Chairmen of the Managing Committees of the Schools of Classical Studies at Athens and in Rome, *ex officio*. The Committee shall have power to add to its membership. The Managing Committee shall meet annually in connection with the Society of Biblical Literature and Exegesis, or at such time and place as it may itself appoint. Special meetings may be called by the Chairman, and must be called at the request of a majority of the Committee. Nine members of the Committee shall constitute a quorum for business.

III. The Executive Committee shall consist of seven: the President of the Archaeological Institute of America, *ex officio*; five members chosen by the Managing Committee at its annual meeting, to hold office for one year, or till their successors are appointed;

and the Director of the School in Palestine, in the year next following his term of service.

IV. The Executive Committee shall choose its own officers, shall have charge of all money contributed to the School, shall appoint Directors of the School and fix their salaries, designate Fellows, act on applications for admission to the School, and do such other things as the interests of the School may require. It shall make an annual report in writing to the Managing Committee.

V. Changes in these Regulations may be made by a majority of the members of the Managing Committee present at any annual meeting.

VI. The School shall be under the superintendence of a Director appointed by the Executive Committee. It shall be the duty of the Director to secure and maintain quarters for the School, with the approval of the Executive Committee; to have charge of the property of the School; to superintend the work of the Fellows and students, giving them such direction, advice, and assistance as they severally need in prosecuting their studies; and to have the responsible oversight of all archaeological journeys and researches. At the close of each School year the Director shall make a written report to the Managing Committee of the work accomplished by the School. The Executive Committee may, at its discretion, appoint Associate Directors and Lecturers in the School, and define their duties and their relations to the Director.

VII. The School year shall extend from the 1st of October to the 1st of June. The Director, Fellows, and regular students of the School are expected during this term to be in residence in Jerusalem, except as, under the authority of the Director, they may be engaged in travel or research germane to the purpose of the School.

VIII. Fellowships in the School shall be filled by the Executive Committee, mainly by competitive examination. The Committee shall cause to be published in the *Journal of Biblical Literature*, the *American Journal of Archaeology*, and in a circular to the supporting institutions, information concerning the Fellowships, in which the subjects and scope of the examinations are defined, and the time and place at which they will be held specified.

IX. Bachelors of Arts or of Divinity of American Universities, Colleges, or Theological Schools, and, in exceptional cases, other qualified persons, may be admitted to the School as students on submitting to the Chairman of the Executive Committee satisfactory evidence that their previous studies have been of such a character as to fit them to profit by the opportunities that the School affords.

X. Students who have previously been members of any of the supporting institutions shall, upon application from that institution, be exempt from all charges for tuition. All other students will be required to pay into the treasury of the School, through the Director, an annual fee of \$25.

XI. Both men and women shall be received as students upon the conditions set forth above; and no preference shall be shown to any religious denomination.

XII. Residents or travellers in Palestine, who are not regular members of the School, may, at the discretion of the Director, be enrolled as Special Students, and enjoy the privileges of the School. Such students shall pay a tuition fee of \$25, except as provided in X. above.

XIII. All studies and researches by members of the School, designed for publication, shall be put in the hands of the Executive Committee, which shall decide how and where they shall be published. Articles the subject of which falls in the field of Biblical philology, criticism, or history shall be printed by preference in the *Journal of Biblical Literature*; those of a more distinctly archaeological character, in the *American Journal of Archaeology*.

XIV. No communication of any sort, relative to the School, its members, work, or interests, shall be given to the public press by any one connected with the School without having been previously submitted to the Director, and publication authorized by him.

FELLOWSHIPS

1906-1907

IN THE SCHOOLS IN ATHENS AND ROME

Fellowships will be awarded as follows for the year 1906-07: at the American School of Classical Studies at Athens, two in Greek Archaeology, with a stipend of \$600 each, and one Fellowship in Architecture (maintained by the Carnegie Institution of Washington), with a stipend of \$1000; and at the American School of Classical Studies in Rome, two Fellowships for Research (maintained by the Carnegie Institution), one in Roman Classical Archaeology, and one in Roman Literature, each with a stipend of \$800, one Fellowship in Roman Classical Archaeology, with a stipend of \$600, and probably one in Christian Archaeology, with a stipend of \$600.

For the year 1906-07 the Fellowship in Architecture at the School at Athens will be awarded without examination, but candidates will be required to submit specimens of their work as draughtsmen; the Fellowships for Research at the School in Rome will be awarded to present or former members of the School, and, at the discretion of the Committee on Fellowships, to other candidates of special qualifications, without an examination. Applications for these Fellowships must be made not later than February 15, 1906.

These Fellowships are open to Bachelors of Arts of universities and colleges in the United States of America, and to other American students of similar attainments. They are awarded chiefly on the basis of competitive written examinations, but other evidence of the ability and attainments of candidates will be considered. They are awarded for one year; a Fellow in Classical Archaeology in either School, however, may, at the discretion of the Committee on Fellowships, be reappointed for a second term without an examination, on the recommendation of the Director and Professors of the School, but not more than one such reappointment will be made in either School in any year, and no Fellowship in Classical Archaeology may be held for more than two years.

The holders of these Fellowships will be enrolled as regular members of the School to which they are attached, and will be required

to pursue their studies, under the supervision of its Director, during the full school year. But Fellows of either School, with the consent of the Director, may spend a limited portion of the year in residence at the other School, under the supervision of its Director. In addition to his general studies, each holder of a Fellowship is required to prosecute some definite subject of special research, and, after the completion of the year, to present a paper embodying the results of his investigation. Twice in the year, namely on February 1 and July 1, each Fellow will make a report to the Chairman of the Committee on Fellowships, with regard to the use which he has made of his time. A somewhat detailed description of the progress of his researches will be required. For the prosecution of his special investigation he may obtain leave, under certain conditions, to supplement his studies at Athens or in Rome by researches elsewhere than in Greece or Italy. (See Regulations XI and XX of the School at Athens, and Regulations XI and XII of the School in Rome.) The Fellow must be a candidate for a certificate.

Each candidate must announce in writing his intention to offer himself for examination. This announcement must be made to the Chairman of the Committee on Fellowships of the School which the candidate wishes to join (Professor H. N. Fowler, *Western Reserve University, Cleveland, Ohio*, for the School at Athens; and Professor J. C. Rolfe, *4400, Chestnut Street, Philadelphia, Pa.*, for the School in Rome), and must be in the Chairman's hands not later than February 1, 1906. The receipt of the application will be acknowledged and the candidate will receive a blank, to be filled out and returned to the Chairman by February 15, in which he will give information in regard to his studies and attainments. A copy of this blank may also be obtained at any time by application to the proper Chairman.

The examinations will be held in Athens, in Rome, and at any of the universities or colleges represented on the Managing Committee of either School, on Monday, Tuesday, and Wednesday, March 12, 13, and 14, 1906, for the Fellowships of the School in Rome; and on Thursday, Friday, and Saturday, March 15, 16, and 17, for the Fellowships of the School at Athens.

The subject for special study in architecture for candidates for Fellowships in Classical Archaeology in the School at Athens is the temple of Zeus at Olympia.

The award of the Fellowships will be made, and notice sent to all candidates, as soon as practicable after the examinations are held. This notice will be mailed probably not later than May 1. The

income of these Fellowships is paid in three equal instalments on August 15, January 15, and June 1 for the School at Athens, and on September 1, January 1, and April 1 for the School in Rome.

The Fellowship examinations of 1907 will be held in March of that year under conditions similar to those which are stated above. Special inquiries on the subject of the Fellowships of the School at Athens should be addressed to Professor Harold N. Fowler, *Western Reserve University, Cleveland, Ohio*; and of the Fellowships of the School in Rome, to Professor John C. Rolfe, 4400, *Chestnut Street, Philadelphia, Pa.*

IN THE SCHOOL IN PALESTINE

The Thayer Fellowship with a stipend of \$600 will be awarded for the year 1906-07, chiefly on the basis of a competitive written examination, although other evidence of ability and attainments on the part of candidates will be taken into consideration.

This Fellowship is open to Bachelors of Arts of universities and colleges in the United States of America, and to other American students of similar attainments. Candidates will be expected to have such a knowledge of Greek (including Hellenistic Greek), Latin, French, and German as will enable them to make effective use of books written in those languages. The examination will also include Biblical Hebrew, the history and geography of Palestine (ancient and modern), its archaeology, the elements of North Semitic epigraphy, and the outlines of Biblical and early Christian literature. Optional papers will be set in Syriac and modern written Arabic. Students who propose to devote themselves chiefly to the early Christian period or to mediaeval and modern times should shape their preparation accordingly, and will be permitted, on consultation with the Committee, to substitute other subjects for some of those named.

The examination will be held on the 12th, 13th, and 14th of March, 1906, at any one of the colleges or theological seminaries coöperating in the maintenance of the School, namely, Andover Theological Seminary, Auburn Theological Seminary, Boston University, Brown University, Bryn Mawr College, Colgate University, Columbia University, Cornell University, the Episcopal Theological School in Cambridge, Hartford Theological Seminary, Harvard University, the Hebrew Union College in Cincinnati, Johns Hopkins University, McCormick Theological Seminary, New York University, Princeton Theological Seminary, Princeton University, Trinity

College in Hartford, Union Theological Seminary in New York, University of Pennsylvania, Yale University.

Persons intending to offer themselves for the examination should consult the Secretary of the Committee on Fellowships, Professor Charles C. Torrey, *Yale University, New Haven, Conn.*, and must announce to him their intention in writing not later than the first of February. On making such announcement the applicant will receive a blank to be filled out with information respecting his studies and attainments.

The award of the Fellowship will be made known to all candidates as soon after the examination as practicable, probably by the first of May.

The income of the Fellowship will be paid in two instalments of \$300 each, — the first on August 1, the second on the fifteenth day of the following May.

The principal papers set in the examination in 1905 are printed on pp. 194-196 of this Report.

FELLOWSHIP EXAMINATIONS IN THE SCHOOL AT ATHENS

The examination in 1906 will cover the subjects mentioned below, and will be based on the books specially named. Other books are named for supplementary reading and reference. For additional titles, candidates are referred to the list of "Books Recommended," which was published in the Appendix to each of the first two volumes of the *Journal of Archaeology, Second Series*. Each candidate should strive to make his study of the special subjects in Greek Archaeology mentioned below as largely objective as possible, by the careful inspection and comparison of monuments of Greek art, in originals if possible, otherwise in casts, models, electrotypes, photographs, and engravings. The time at which examinations will be held in 1906 is named in each case. Details of the subjects of examination, particularly in Greek Architecture and Greek Sculpture, are subject to change from year to year.

Fellows are charged no fee for tuition. The men who are holders of fellowships will be allowed to occupy furnished rooms in the School building on payment by each of \$20 per annum.

Fellows of the School are advised to spend the summer preceding their year at Athens in study at the museums of Northern Europe.

Duo quidam, cum iam in alto navigarent, et cum eorum alterius navis, alterius onus esset, naufragum quendam natantem et manus ad se tendentem animum adverterunt: misericordia commoti navem ad eum applicarunt, hominem ad se sustulerunt. Postea aliquanto ipsos quoque tempestas vehementius iactare coepit, usque adeo, ut dominus navis, cum idem gubernator esset, in scapham confugeret, ille autem, cuius merces erant, in gladium ibidem incumberet. Hic ille naufragus ad gubernaculum accessit et navi, quod potuit, est optulatus. Sedatis autem fluctibus et tempestate iam commutata navis in portum pervehitur. Ille autem, qui in gladium incubuerat, leviter saucius facile ex vulnere est recreatus. Navem cum onere horum trium suum quisque esse dicit. Hic omnes scripto ad causam accedunt et ex nominis vi nascitur controversia. — CICERO, *De Inven.* II, 153 f.

Non est ergo ille, de quo dictum est ‘Iovis omnia plena,’ si aliquam partem implet et Iuno. An uterque utrumque implet, et ambo isti coniuges et in duobus istis elementis et in singulis simul sunt? Questo nipote, Francesco Fanelli, era il più giovane dei due figliuoli di sua sorella. Aveva ventidue anni solamente; alto, snello, coi capelli castani, due occhi grigi-azzurri e due mustachietti biondi, portava, in se, una rassomiglianza perfetta con suo padre morto. Mentre Clementina, biondissima, pallida, con gli occhi biancastri, ma leggiera-

dra sempre, era simile a sua madre, col viso un po' inespressivo delle bionde e un' aria fra altiera e leziosa, il fratello aveva l' aria dolce e ridente di suo padre, e una seduzione fisica che egli rendeva più grande, occupandosi moltissimo di sua persona, spendendo tutto quello che gli davano e che solea portar via a sua madre, in abiti, in camicie eleganti, in capelli alla moda, portando anelli di brillanti al dito e fiori all' occhiello.

L' uscio si chiuse; era sola. Allora dispose la lettera e sedette sul suo letto sfatto, guardando alla finestra di ponente le rose da cui traspariva un lontano verde pieno di sole. Pensieri e pensieri le salivano dal cuore, disegni e propositi le si formavano dentro la fronte con un lento lavoro, e non se ne vedeva ombra nel occhio vitreo. Solo le labbra si movevano a quando a quando senza voce, articolavano una sillaba muta, come tocche dalla parola interiore ne' suoi scatti più violenti. Ella si alzò finalmente, andò alla finestra e, celata dietro le rose, pianse.

It is my intention to pass this afternoon in the Church of St. Peter. If it had not been my plan to do this, I should have told you. If you enter the church by the great door, you will see me standing near the small altar at the right. Believe me, my dear friend, that would be the best way. Let us meet there, near the door of the sacristy. That will be easier than finding each other in the street, where there are always more people than we are accustomed to see in the church. Very well, I will go to my sister's for luncheon, and afterwards I shall expect to find you at St. Peter's, and we can dine together.

3. Give the present indicative, future, and preterite of the following verbs, writing out the conjugation in full: *porre, rispondere, sapere, stare, dare, togliere, chiedere, fare, giungere, potere, rimanere, giacere, andare*.

It would be better to buy third class tickets. Did you think I would take care of your baggage?

FELLOWSHIP IN MEDIAEVAL AND RENAISSANCE ARCHAEOLOGY, 1906-07

A fellowship of \$600 is offered by the Archaeological Institute of America for research and study in the field of Mediaeval and Renaissance Archaeology. Since provision has been made for the guidance of such students at the American School of Classical Studies in Rome, the requirements for the coming year presuppose special interest in Italian Archaeology of the Mediaeval and Renaissance periods. The fellowship will be assigned chiefly on the basis of written examinations, although other evidence of the ability and attainments of candidates will be considered. Applicants for this fellowship should be able to read Latin, French, German, and Italian, and be prepared to assign well-known Italian monuments to the proper school and period.

The examinations will be held on March 12, 13, and 14, 1906, at Rome or at any University or College represented on the Managing Committee of the American School of Classical Studies in Rome. Credentials and other evidence of work already done should be forwarded to Professor ALLAN MARQUAND, *Princeton, N.J.*

Latin, French, German. (*Monday, March 12, 2.30-4 P.M.*)

An examination in classical Latin, the same as that required by the American School of Classical Studies in Rome, will be given, to test the ability of the student to read classical Latin, as an introduction to the reading of Mediaeval and later Latin documents.

Examinations in French and German will not be required, but candidates are expected to add to their Latin paper statements showing the quantity and quality of their reading in these languages.

THE SCHOOL AT ATHENS

Students who desire to apply for admission to the School at Athens should address, if in America, the Chairman of the Managing Committee; if in Europe, the Director of the School. Information with reference to the School may be obtained from either of these officers. The application should be accompanied by a statement of the preparation of the applicant.

The student should gain as great command as possible of the German, French, and Modern Greek languages before going abroad; and the summer preceding a year at the School may profitably be spent in France or Germany, working in the Museums (Paris, Berlin, Dresden, Munich) and obtaining practice in French or German conversation.

The usual port of arrival in Greece for those coming from Western Europe is Patras, eight hours by rail from Athens. To Patras the shortest sea route is from Brindisi (thirty hours, including the stop at Corfu), with three steamers weekly. Those who come from countries north of Italy will avoid the long railway journey to Brindisi by taking the weekly express steamer from Trieste. The Italian steamer from Venice is less direct.

From Marseilles there are fortnightly steamers to the Piraeus, via Naples; also to Patras; and from Genoa, via other Italian and Sicilian ports, to the Piraeus, touching at Crete.

If the student wishes to go directly from America to Italy, he will take one of the lines which have a regular express service from New York to Genoa and Naples (minimum price about \$95 for first-cabin passage), or one of the *Navigazione Generale* or the Prince Line Steamers to Naples. Brindisi is twelve hours by rail from Naples.

The cost of living in Athens is very much what one chooses to make it; but one may live cheaply with much more comfort than in America. At the large hotels in Athens, board and lodging can be obtained for \$14 per week; at small hotels and in private families, for \$5.50 per week, and upward. A limited number of men students may have rooms, without board, in the School building at Athens.

The School library at Athens, which now contains more than four thousand volumes, provides all the books that are most essential for study in Greece, and the student in travelling should encumber himself with few books.

THE SCHOOL IN ROME

Students who desire to apply for admission to the School in Rome should address, if in America, the Chairman of the Managing Committee, Professor Andrew F. West, *Princeton University, Princeton, N.J.*; if in Europe, the Director of the School, Professor Richard Norton, *Villa Bonghi, Via Vicenza, 5, Rome, Italy*. If they wish to compete for the Fellowships offered, they should address the Chairman of the Committee on Fellowships, Professor John C. Rolfe, *4400, Chestnut Street, Philadelphia, Pa.* In any case the application should be accompanied by a full statement of the preparation of the applicant.

The provision for the admission of special students is intended for the benefit, not of ill-prepared persons, nor of those who through circumstances or disposition do not desire to devote at least a full year to study in the School, but primarily for advanced students who have undertaken some special topic for research which can well be carried on under the auspices of the School, but does not require residence in Rome for an entire year.

Students should plan, if practicable, to spend at least two years in study at the School, in order to profit in fullest proportion from the labor and expense involved. But well-directed work for a single year will yield very rich returns, if previous preparation is sufficient. Every student must be able to read not only Latin and Greek, but also French and German; and a knowledge of colloquial and of written Italian, if not previously attained, must be acquired as speedily as possible. This last, however, is an easy task, especially if the student can spend a considerable part of the summer preceding his entrance into the School in residence and in the study of the Italian language in some one of the picturesque and healthful hill towns of Tuscany or Umbria; and summer residence in the larger cities, like Florence and Rome, is considered by many who have had experience to be no more dangerous than summer residence in most cities of America, though the weather, especially in August and September, is usually hot and likely to prove somewhat debilitating.

Some preliminary acquaintance with at least the elements of the subjects of study usually pursued in the School will be found of the greatest advantage, and the fuller this knowledge, the sooner will the student be ready to take up that independent work, the many opportunities for which are among the greatest gifts that Rome has to offer. The books that are especially recommended for the study of competitors for Fellowships are precisely those

that all prospective students of the School in Rome might study to great advantage.

An announcement of the lectures and other forms of instruction offered by the School is usually issued in April or May of each year, and a copy of this circular for the current or for the coming year will be sent to any person on application to the Chairman of the Managing Committee, or to the Director of the School. The General Regulations of the School are published on pp. 133-139 of this SUPPLEMENT.

The School possesses a small but well-selected and growing library. Students have also free access to the National libraries and museums of Rome, and leave can be readily obtained to draw books from such of the libraries as are lending-libraries. Competent students have also been most generously admitted in the past to the lectures and excursions of the German Archaeological Institute, and to the use of its fine library; and have been allowed with the utmost kindness to pursue palaeographical studies in the Vatican Library, and in other collections of manuscripts in the city and the kingdom. Permission is also readily given to attend lectures in the University of Rome.

The school building is the Villa Bonghi, situated at Via Vicenza, 5 (near the Piazza dell' Indipendenza), in an excellent and healthful quarter of the city. It contains the residence of the Director and the library and study-rooms of the School. No lodgings are provided for students, but there are *pensions* in Rome in which board and lodging can be had at a minimum price of about five lire a day, a maximum price of about twelve lire, and an average price of about eight. There are also good and cheap restaurants, and in the past some students have hired furnished rooms, and taken their meals where and when they pleased; but this arrangement is not recommended, on the ground of danger to health. The Director will willingly assist students to find suitable lodgings. These estimates are for men; expenses of women are necessarily somewhat higher, and it should also be noted that the privileges for study in Rome are not yet all granted to women. In estimating their expenses for the year, students should make allowance for numerous small expenditures incidental to residence in a large city and to the proper prosecution of their work, such as fees, doctors' bills, and outlays for occasional *permessi* and for short journeys.

The rates of first-cabin passage from New York to the ports of Northern Europe, or to Genoa and Naples direct, vary from about \$50 to \$125 and more, according to the speed and equipment of

the steamship selected, and the situation of the stateroom and the number of persons occupying it. About \$25 or \$30 must be allowed for the cost of a second-class railway ticket from London or from the German ports to Rome. Rates of steamer passage are liable to sudden change, and the intending traveller had better apply, within a few months of his journey, to some one of the general tourist agencies (such as those of Messrs. Thomas Cook & Son, or Messrs. Clark & Co., both on Broadway in New York), which will send on request a handbook giving dates of sailing and rates of passage by all the trans-Atlantic lines.

The Chairman of the Managing Committee will be happy to give prospective students any further information within his power.

CASTS AND PHOTOGRAPHS

The Twelfth, Thirteenth, Fourteenth, and Fifteenth Annual Reports of the School at Athens contain a list of plaster casts of objects found in the excavations of the School at the Argive Heraeum and at Icaria which may still be had on application to J. H. A. Walthausen, 454, West 41st Street, New York, N. Y.

In the spring of 1896, the School in Rome had mouldings made of the Triumphal Arch of Trajan at Beneventum, under the direction of Professor Frothingham, the Associate Director of the School in 1895-96, who has given an account of the work in his Report for the year. This report was published in the first number of the Journal of the Institute for 1897. A new, illustrated edition of the catalogue of casts from the moulds has been prepared, which gives the price at which each of the (28) casts is sold. The price of the entire series is \$800, not including the cost of packing and transportation. Correspondence regarding these casts may be addressed to the Director of the American School of Classical Studies, *Via Vicenza, 5, Rome*, or to the Chairman of the Managing Committee, Professor Andrew F. West, *Princeton University, Princeton, N. J.*

GREEK SCULPTURE:

Its Spirit and Principles

By EDMUND VON MACH, Ph.D.

Recently Instructor in Greek Art in Harvard University

8vo. xviii, 318 pages; 166 illustrations; chapter of Notes and complete Index

Price, \$4.50

Von Mach's *Greek Sculpture* is based upon an entirely new conception of the meaning of Greek art. It is addressed to all students of art, to executing artists, and to the general public. The one hundred and sixty illustrations are reproduced in half-tone and are printed on specially prepared paper. A helpful chapter of Notes and a graded Bibliography are included.

REPRESENTATIVE OPINIONS

Professor Ernest A. Gardner, *University College, London*: "Dr. von Mach's *Greek Sculpture* is a book that will prove both instructive and suggestive. By his system of dealing with artistic principles, rather than with details of archaeological sequence, he has made his work attractive and readable; and, at the same time, both artists and students of archaeology will find many new questions raised and many old questions viewed in a new aspect."

President Benjamin I. Wheeler, *University of California*: "The tone of the book is noble, the information accurate, and the judgment sane."

Professor Rufus B. Richardson, *formerly Director of the American School of Classical Studies at Athens*: "... neglected none of the authorities, and worshipped none."

Professor H. de Forest Smith, *Amherst College*: "It is unique in method and style, reliable, and illuminating."

The Honorable John Bigelow, *President of the Public Library of New York City, and member of the New York Art Commission*: "It is an admirable piece of work. . . . I found fascination in every chapter."

The Harvard Graduates' Magazine: "Dr. von Mach . . . surveys his subject from the standpoint of the historian and critic of art. . . . Throughout he manifests deep feeling, which he has the power of communicating. . . . He is stimulating and sympathetic, and, although he has complete familiarity with the literature of his subject, he is unpedantic."

The Dial: "Scholarly, sincere, and full of suggestion. . . . The strength, the force, the unity, which are shown in the work, make one feel that what Mr. von Mach states as fact is authoritative, and his conclusions are well worth considering."

A HISTORY AND DESCRIPTION OF ROMAN POLITICAL INSTITUTIONS

By FRANK FROST ABBOTT

This book serves as an introduction to the study of Roman political institutions and at the same time gives the student some acquaintance with Roman life and literature. The work is divided into three distinct parts, dealing respectively with the monarchical, republican, and imperial periods of Roman history.

The value of the book is still further enhanced by constant references to original sources.

ANCIENT HISTORY (Revised Edition)

FACSIMILE OF THE CODEX VENETUS MARCIANUS 474 OF ARISTOPHANES

The photographic facsimile of this important MS. was undertaken jointly by the Archaeological Institute of America and the Society for the Promotion of Hellenic Studies, with the permission of the Government of His Majesty the King of Italy, and was issued to subscribers at the end of 1902 at a lower price than that of most similar publications, viz., \$30.00 in portfolio, and \$31.50 bound in half-morocco. Two hundred copies were printed, and of these two-thirds have already been sold.

It has now been decided to raise the price of those that remain unsold on April 1, 1905, to \$35.00 and \$36.75 respectively. Orders received before that date will be executed at the original price.

The Codex Venetus Marcianus CCCCLXXIV is one of the oldest and best sources of the text of Aristophanes. It was written at the beginning of the twelfth century, contains seven plays, and is superior to all other manuscripts of this author in the number and quality of the scholia with which its margins are filled. It is indeed especially on account of the scholia that a reproduction was called for; for while the scholia of the Ravennas, though less valuable, have been edited in full, those of the Venetus, which are of prime importance for the criticism of Aristophanes, have never been adequately published. Since the appearance of this volume, the Codex Ravennas has also been published in facsimile by A. W. Sijthoff of Leiden at \$60.00; and thus the most important materials for the text of the great comic dramatist have been placed beyond the reach of destruction.

The plates, 344 in number, have been executed by the colotype process by the Oxford University Press from negatives taken by Signor Bertani of Venice. A full palaeographical introduction by Mr. T. W. Allen, Fellow of Queen's College, Oxford, is prefixed to the facsimile.

FACSIMILE OF THE CODEX VENETUS MARCIANUS 474 OF ARISTOPHANES

The photographic facsimile of this important MS. was undertaken jointly by the Archaeological Institute of America and the Society for the Promotion of Hellenic Studies, with the permission of the Government of His Majesty the King of Italy, and was issued to subscribers at the end of 1902 at a lower price than that of most similar publications, viz., \$30.00 in portfolio, and \$31.50 bound in half-morocco. Two hundred copies were printed, and of these two-thirds have already been sold.

It has now been decided to raise the price of those that remain unsold on April 1, 1905, to \$35.00 and \$36.75 respectively. Orders received before that date will be executed at the original price.

The Codex Venetus Marcianus CCCCLXXIV is one of the oldest and best sources of the text of Aristophanes. It was written at the beginning of the twelfth century, contains seven plays, and is superior to all other manuscripts of this author in the number and quality of the scholia with which its margins are filled. It is indeed especially on account of the scholia that a reproduction was called for; for while the scholia of the Ravennas, though less valuable, have been edited in full, those of the Venetus, which are of prime importance for the criticism of Aristophanes, have never been adequately published. Since the appearance of this volume, the Codex Ravennas has also been published in facsimile by A. W. Sijthoff of Leiden at \$60.00; and thus the most important materials for the text of the great comic dramatist have been placed beyond the reach of destruction.

The plates, 344 in number, have been executed by the colotype process by the Oxford University Press from negatives taken by Signor Bertani of Venice. A full palaeographical introduction by Mr. T. W. Allen, Fellow of Queen's College, Oxford, is prefixed to the facsimile.

FACSIMILE OF THE CODEX VENETUS MARCIANUS 474 OF ARISTOPHANES

The photographic facsimile of this important MS. was undertaken jointly by the Archaeological Institute of America and the Society for the Promotion of Hellenic Studies, with the permission of the Government of His Majesty the King of Italy, and was issued to subscribers at the end of 1902 at a lower price than that of most similar publications, viz., \$30.00 in portfolio, and \$31.50 bound in half-morocco. Two hundred copies were printed, and of these two-thirds have already been sold.

It has now been decided to raise the price of those that remain unsold on April 1, 1905, to \$35.00 and \$36.75 respectively. Orders received before that date will be executed at the original price.

The Codex Venetus Marcianus CCCCLXXIV is one of the oldest and best sources of the text of Aristophanes. It was written at the beginning of the twelfth century, contains seven plays, and is superior to all other manuscripts of this author in the number and quality of the scholia with which its margins are filled. It is indeed especially on account of the scholia that a reproduction was called for; for while the scholia of the Ravennas, though less valuable, have been edited in full, those of the Venetus, which are of prime importance for the criticism of Aristophanes, have never been adequately published. Since the appearance of this volume, the Codex Ravennas has also been published in facsimile by A. W. Sijthoff of Leiden at \$60.00; and thus the most important materials for the text of the great comic dramatist have been placed beyond the reach of destruction.

The plates, 344 in number, have been executed by the colotype process by the Oxford University Press from negatives taken by Signor Bertani of Venice. A full palaeographical introduction by Mr. T. W. Allen, Fellow of Queen's College, Oxford, is prefixed to the facsimile.

Archaeological Institute of America

FACSIMILE OF THE CODEX VENETUS MARCIANUS 474 OF ARISTOPHANES

The photographic facsimile of this important MS. was undertaken jointly by the Archaeological Institute of America and the Society for the Promotion of Hellenic Studies, with the permission of the Government of His Majesty the King of Italy, and was issued to subscribers at the end of 1902 at a lower price than that of most similar publications, viz., \$30.00 in portfolio, and \$31.50 bound in half-morocco. Two hundred copies were printed, and of these two-thirds have already been sold.

It has now been decided to raise the price of those that remain unsold on April 1, 1905, to \$35.00 and \$36.75 respectively. Orders received before that date will be executed at the original price.

The Codex Venetus Marcianus CCCCLXXIV is one of the oldest and best sources of the text of Aristophanes. It was written at the beginning of the twelfth century, contains seven plays, and is superior to all other manuscripts of this author in the number and quality of the scholia with which its margins are filled. It is indeed especially on account of the scholia that a reproduction was called for; for while the scholia of the Ravennas, though less valuable, have been edited in full, those of the Venetus, which are of prime importance for the criticism of Aristophanes, have never been adequately published. Since the appearance of this volume, the Codex Ravennas has also been published in facsimile by A. W. Sijthoff of Leiden at \$60.00; and thus the most important materials for the text of the great comic dramatist have been placed beyond the reach of destruction.

The plates, 344 in number, have been executed by the colotype process by the Oxford University Press from negatives taken by Signor Bertani of Venice. A full palaeographical introduction by Mr. T. W. Allen, Fellow of Queen's College, Oxford, is prefixed to the facsimile.
